The new degree of comfort."

Rheem® IKONIC® Commercial Tankless **Water Heater**

Easy Installation

- · Various common venting options, including PVC and Polypropylene
- PVC Vent runs up to 70' (2"), 150' (3")
- Easy set up with full text digital display and no dip-switches
- Field gas convertible from natural gas to LP - conversion kit included
- Allows flex venting through existing B-vent up to 50'
- Manifold capable up to 32 units
- Ready-to-Install factory-built rack systems, available in wall-hung configurations (2 units or 3 units) or floor-mounted setups (up to 6 units). These rack systems come preprogrammed with electrical and manifolding features*

Key Features

- Up to 98% thermal efficiency
- Stainless steel Primary and Secondary heat exchangers provide increased efficiency and durability

- Built-in Recirculation pump for no wait continuous hot water at the tap (CSR models)
- Built-in EcoNet® Wi-Fi technology for
- LeakGuard® All-inclusive leak detection and prevention system that detects any
- 8-year Heat Exchanger Warranty

• Rheem® Exclusive! Hot-start programming[™] ensures the unit is in a ready state between back-to-back usage, avoiding any cold water bursts

- direct control from your device
- internal leak that comes from the unit.

Approved for installations in Manufactured Home (Mobile Home) environments

¹Based on simultaneous showers using 2 GPM flow rate pre-mixed with cold water line. Flow rates vary depending on temperature of incoming cold water and water heater set temperature. Refer to capacity table by zone for accurate sizing. ² For indoor application, this is the temperature of outdoor intake air. ³ Manifolds with standard RJ25 communication cables. ⁴ If anti freeze is on and combustion is on, total W will be 217W (85+132). 5Recommended 241 clearance for service
